Office Acti n Summary

Art Unit: 1712

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Kadoi. The rejection is applied as in the previous Office Action. The reference discloses that the compositions have high impact strength, flexibility and gas barrier properties and can be used to make a fuel line tube. See col. 7, lines 44-59. Examples 3, 4 and 14 of the reference are substantially the same as composition used to form the claimed fuel system part. Whether the rejection is made under 35 U.S.C. 102 or 35 U.S.C. 103, where the reference product is substantially the same as the claimed product the burden is upon applicant to prove the claimed property is not inherent in the product of the reference. See *In re Best* 195 USPQ 430 (CCPA 1977); *In re Fitzgerald* 205 USPQ 594 (CCPA 1980). There is no evidence of record that the reference compositions of examples 3, 4 and 14 do not possess the claimed fuel permeability coefficient.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however,

Art Unit: 1712

will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
